Portfolio: miledissa-portfolio.netlify.app

Objective

Motivated Computer Science student with a strong foundation in full-stack web development, object-oriented programming, and data structures. Eager to apply technical skills and academic knowledge through an internship or entry-level position, contributing to innovative projects and gaining hands-on industry experience.

Projects

Online Learning Platform | Full-Stack Developer

Developed a comprehensive educational platform with user authentication and an admin dashboard using Node.js, Express.js, SQL, and EJS. Implemented dynamic content rendering and managed database interactions.

Interactive Drum Kit | Front-End Developer

Developed a dynamic web-based drum machine with keyboard controls and real-time audio processing using HTML5, CSS3, and JavaScript.

Flight Reservation System / Java Developer

Built an object-oriented airline management system with intelligent seat allocation algorithms in Java. Included robust ticket management functionalities and data persistence mechanisms.

Static Array Linked List | C++ Developer

Created an efficient linked list implementation using static array allocation in C++. Achieved constant time complexity for core operations and included a custom iterator for traversal.

Education

University Of Balamand ,BS in Computer Science

Major : computer Science

Expected Graduation: 2026

Current GPA: 89.99/100

Certifications

The Complete 2025 Web Development Bootcamp, Udemy

Comprehensive training covering front-end and back-end web development, including projects using HTML, CSS, JavaScript, Node.js, and React.

Skills & abilities

- **Programming Languages**: Java, JavaScript, C++
- **Web Technologies**: HTML5, CSS3, Bootstrap, EJS
- **Frameworks/Libraries**: React.js, Node.js, Express.js
- **Databases**: SQL, MariaDB, MongoDB ,Mysql
- **Tools & Platforms**: Git, GitHub, Bash, Netlify
- **Concepts**: Object-Oriented Programming, Data Structures, Algorithms, RESTful APIs
